

SUNDERLAND CITY COUNCIL BUILDING CONTROL SERVICE

BUILDING REGULATION CHARGES – GUIDANCE NOTE 2 **DOMESTIC EXTENSIONS and ALTERATIONS**

With effect from 2nd October 2023

PRINCIPLES OF THE CHARGING SCHEME

Charges are payable for the following functions:

- (a) the passing or rejection of plans of proposed building work which has been deposited with the council in accordance with section 16 of the Building Act 1984 (as amended);
- (b) the inspection of building work for which plans have been deposited with the council in accordance with the Building Regulation 2010 (as amended) and with section 16 of the Building Act 1984 (as amended);
- (c) the consideration of a building notice, which has been given to the council in accordance with the Building Regulations 2010 (as amended);
- (d) the consideration of building work reverting to the council under the Building (Approved Inspectors etc.) Regulations 2010 (as amended);
- (e) the consideration of a regularisation application submitted to the council under regulation 18 of the Building Regulations 2010 (as amended).
- (f) Chargeable advice – payable on demand after the Authority have given notice in writing.

PAYMENT OF CHARGES

Charges in respect of 1(a) to (d) above are required to be paid by the person by whom or on whose behalf the work is to be carried out; a charge in respect of (1)(e) is required to be paid by the owner of the work or building. In relation to 1(f) the charge is payable by any person requesting advice for which a charge may be made.

The charges for the prescribed function are divided into Full Plans Application, Building Notice and Regularisation Charges.

Please make payment by debit card, credit card or by cheque (made payable to **Sunderland City Council**).

- **Full Plans** – The full plan charge is deposited upon submission of a Full Plans application to the Authority unless a plan fee charge schedule is requested by the applicant. Please refer to Tables 2 & 3.
- **Building Notice** - The charge must be paid when the notice is submitted to the Authority. Please refer to Tables 2 & 3.
- **Regularisation Charge** - This is 150% of the Excl VAT Building Notice charge and must be paid when the application is submitted to the Authority. Please refer to Tables 2 & 3.
- **Inspection Charge** – An inspection charge may be required if only an agreed plan charge fee has been paid upon submission of a full plans application as requested by the applicant. The balance payment for the cost of the service, is required to be paid on demand after the first inspection has been carried out, following commencement of the works. The invoice for this charge will be sent to the owner (applicant on application form), unless requested otherwise.

As of 2nd October 2023 we request that all fees are payable in full upon submission of a Building Regulations application unless a separate plan charge and inspection charge is requested by the applicant.

If the basis on which the charge has been determined changes, the Local Authority may refund or request a supplementary charge. The Authority will provide a written statement setting out the basis and method of calculation for the refund/ supplementary charge.

SCALE OF CHARGES

This information sheet is for guidance only. All charges specified are derived from the current Scheme of Charges prepared by the Authority to which reference may be made if clarification is required, as it contains full details of the scheme and the provisions of The Building (Local Authority Charges) Regulations 2010. Fees are subject to VAT at the appropriate rate (except Regularisation charge).

There are two methods used by the Authority to establish the Building Regulation Charge:

- **Standard charge** – majority of charges for this type of work are standard charges and are listed in the tables below.
- **Individually Determined Charges** apply in the following situations:
 - Multiple types of extension and alteration;
 - Reversions
 - Building work in relation to more than one building
 - Alterations where estimated cost exceeds £75,000
 - Extensions exceeding 100m² for single storey; and 200m² for 2-storey.
 - Garages where floor area exceeds 100m²

In the assessment of the appropriate fees the following additional information may be of assistance: -

- **Estimated Cost** – an estimate that is accepted by the Authority of such reasonable amount as would be charged by a person in business to carry out such building work.
- **Exemption in relation to building work solely for disabled people** – where an existing dwelling that is, or is to be, occupied by a disabled person as a permanent residence is to be altered, and where the whole of the building work is solely for the benefit of a disabled person – charges may not apply. However due to the complexity of the regulations giving exemption please contact Building Control directly to seek further clarification.
- **Floor Area** – the total floor area of any building or extension is the total of the floor area of all the storeys which comprise that building or extension.
- **Multiple Extensions** - If more than one extension is proposed to be built the total floor area of all the extensions may be added together to determine the charge payable provided that the extensions are built at the same time. If built independently separate inspection charges may be payable.
- **Extension + Alteration** - Where an application consists of an extension to property and work covering other alterations – an additional fee will be required estimated on the total cost of the additional works.
- **Replacement Glazing** –If the replacement glazing is applicable to more than one property in the same ownership and locality please contact Building Control for a competitive quote.
- **To resolve an outstanding case and issue a Completion Certificate** where the work has been completed or occupied for more than 3 years from the date of the last inspection and a subsequent request is made for a Completion Certificate a charge of £150.00 + vat will be applicable.
- **Refunds** - A fee of £50.00 + vat will be charged for the withdrawal of a Building Regulation application prior to plan assessment being carried out and/or site inspection being made. Where a Building Regulation application is withdrawn after a plan assessment and/or site visit has been carried out any refund will be at the discretion of the Council and on an individually determined basis.

If your Building Regulation application requires an individually determined charge – please contact the relevant Building Control team with the location and a full description of the proposed building work.

The standard charges have been set by the Authority on the basis that the building work does not consist of, or include, innovative or high risk construction techniques and/or the duration of the building work from commencement to completion does not exceed 12 months.

The charges have also been set on the basis that the design and building work is undertaken by a person or company that is competent to carry out the design and building work referred to in the standard charges tables, that they are undertaking. If not, the work may incur supplementary charges.
